Duke's Distributed Master of Engineering Management Program (d-MEMP) is an innovative low-residency distance option for early-career working professionals. The information below is gathered from several cohorts to give prospective students an idea of the profile of a typical class.

Admissions Profile

- **Cohort Size**: 20 to 30
- **Age at Entry (mid 50% range)**: 23 to 27
- **Work Experience (mid 50% range)**: 2 to 4 years
- **GRE Verbal (mid 50% range)**: 153 – 160
- **GRE Quantitative (mid 50% range)**: 156 – 163
- **GRE Analytical Writing (mid 50% range)**: 4.0 – 4.5
- **Grade Point Average (mid 50% range)**: 3.1 – 3.5
- **Women**: 31%

Organizations Represented

- AT&T
- BAE Systems
- Black & Veatch
- Bosch
- Carrier
- Chevron
- Deere & Company
- Eaton
- ExxonMobil
- Fluor Enterprises
- General Electric
- Gulfstream Aerospace
- IBM
- Ingersoll Rand
- Kollmorgen
- Lockheed Martin
- Medtronic
- Microsoft
- MicroStrategy
- Monsanto
- Northrop Grumman
- Raytheon
- Southern Power
- The Boeing Company
- The Linde Group/Hydro-Chem
- The Timken Company
- United Space Alliance
- United Technologies
- US Air Force
- US Army
- US Marine Corps

Student Distribution by Undergraduate Major

- Aerospace Engineering
- Biomedical Engineering
- Civil Engineering
- Computer Science
- Electrical & Computer Engineering
- Industrial Engineering
- Materials Science & Engineering
- Mechanical Engineering
- Other Engineering Disciplines
- Other Disciplines
